

Jodrell Bank Lyrics

Verse 1

Never before has a tourist attraction, **Lee Page**
Provoked such a strong local reaction.
From miles around the people come, **Rachel Houghton**
Our big dish sticks out like a sore thumb.

It's been looking at the stars for 63 years **Andy Bailey**
If it disappears now we'd all shed tears
Just because we can't find any green men, **Matt Lane**
We have to keep looking, again and again.

Chorus

It's Jodrell, Jodrell, it's Jodrell Bank
Bernard Lovell, Lovell, is the man we like to thank
And everyday we live in hope
Don't go messing with our telescope.

Verse 2

If you take our dish, you'll leave a black hole, **Vicki Norton**
And take away Cheshire's heart and soul.
It's big and it's white and it's very, very round, **Dave Chipman**
Lovell's device makes me feel profound.

Don't go shipping it to the big apple, **Darren Eager**
Keep it in a field, near to Holmes chapel.
'Cos it's the world's finest observatory, **Ryan Cooney**
We love it like the English love a cuppa tea

Repeat Chorus **St Barnabas School and Marlborough Primary School**

Verse 3

Find a huge bowl, hunt for a giant plate, **Vicki Norton**
Just leave our big dish and it'll be o-rate **Lee Page**
We've got the stars on board for our protest, **Andy Bailey**
Stephen Hawking, Patrick Moore and all the rest. **Dave Chipman**

The decision-makers they don't want it, **Matt Lane**
They must have been on another planet. **Darren Eager**
Just as well we can spy on them, **Rachel Houghton**
And tell you all about it, on Silk FM. **Dave Chipman**

Repeat Chorus twice
